
TECHNICAL PRODUCT BULLETIN

The logo for SANI-SOFT consists of the words 'SANI-SOFT' in a bold, white, sans-serif font, centered within a solid red rectangular background.

EPA Reg. No. 1839-108-38398
EPA Est. No. 38398-NJ-01

Description

SANI-SOFT is a concentrated fabric softener and sanitizer that contains a specially-developed quaternary. SANI-SOFT is infinitely soluble in all proportions with water and exhibits no adverse corrosive effect.

Advantages

- Broad range bactericidal and residual zone of inhibition properties.
- Compatible with other cationics and nonionics.
- It provides all the benefits of softening in the wash cycle, such as:
 - Static electricity control
 - Reduced wrinkling
 - Enhanced drying
 - Improved garment hand

Usage and Handling

See the product label and our authorized representative.

Packaging

SANI-SOFT is available in 4x1-gallon cases, and 5-, 15-, 55-gallon containers.
