

Technical Product Bulletin

DEOSCENT

DEOSCENT is a concentrated, oil-based room freshener for use in meeting rooms, hotel/motel rooms, auditoriums, nursing homes, washrooms, locker rooms, and wherever a fresh scent is needed. The product leaves a pleasant odor, which lasts for several hours. After the scent dissipates, the chemicals continue to fight and eliminate the cause of the odors. In addition, DEOSCENT is excellent for removing fire smoke odors.

Directions

Use DEOSCENT as received or diluted up to 4:1 with water, depending on desired odor intensity. Spray into the air towards each corner of the room. Spray into curtains and musty upholstery. The product can be used with a fogger.

Handling

For institutional or industrial use only. Keep out of the reach of children. Do not use where food is exposed. Exercise caution when using chemicals.

Packaging

DEOSCENT is available in 4x1-gallon cases and 5-gallon containers.
