ECO SOFT 'N SOUR

ECO SOFT 'N SOUR is a non-toxic, biodegradable, all-purpose fabric softener and neutralizing agent for use on all types of fabrics.

Performance

ECO SOFT 'N SOUR is a surface-active agent with properties to overcome harshness in fabric from the fabric itself or from the result of the laundering process. Additionally, fabric pH is lowered through the use of ECO SOFT 'N SOUR to prevent grey-down due to alkali carryover.

Advantages

- Shortens extraction time.
- Reduces drying time to conserve energy.
- Makes shake-out and pressing easier.
- Makes pulling loads easier.
- Helps prevent articles from sticking to extractor walls.
- Keeps washer doors from sticking.
- Imparts fluffiness to treated textiles.
- Helps prolong the life of fabrics.
- Reduces static and wrinkling.
- Leaves smoother finishes after ironing or pressing.
- Reduces and controls lint.
- Improves hand and luster of treated textiles.

Directions

Apply ECO SOFT 'N SOUR as received to the final wash operation at the rate of 2–3 ounces per 50 pounds of wash in cold or split temperature water.

Packaging

ECO SOFT 'N SOUR is available in 2.5-gallon totes, 5-gallon pails, and 15-gallon drums.
