**Description**

FREEZER CLEANER is a ready-to-use liquid cleaner for all sub-freezing applications. Do not mix the product with other additives before usage.

**Applications**

The product cleans freezers, walk-in boxes, and any other sub-freezing vessels.

**Directions**

Use a two-mop bucket system, and preferably a deck brush and dry mop. Remove all debris from the floor. Fill a mop bucket with 1/2 to 1 gallon of FREEZER CLEANER. **DO NOT ADD WATER.**

Starting at the rear of the walk-in using a deck brush or clean mop, swab and scrub your way out of the freezer, while continuously dipping the brush/mop into the FREEZER CLEANER solution. When finished, let sit for 5 minutes. Return with a dry mop to remove any excess cleaner.

Be aware of slipping when mopping a freezer. Wear slip-resistant shoes (not sneakers).

**Advantages**

- Eliminates slippery floor conditions
- No residual odor
- Dissolves slime and greasy soil on most surfaces

**Packaging**

FREEZER CLEANER is available in 4x1-gallon cases.
