

LODGING LOGIC

FOR HOSPITALITY HYGIENE

In the ongoing effort to create and support global hotel cleaning standards, Pariser Industries is providing education and training on enhanced best practices to ensure hotel cleaning and hygiene.

The **Lodging Logic** program strengthens and modifies hotel industry behaviors and standards to ascertain that hotel employees are knowledgeable in their work environment. Ultimately, we want to give hotel guests confidence in the cleanliness and safety of their lodging choice.

Equipped with a full arsenal of disinfection and sanitizing agents for the hospitality and lodging industries, Pariser's guidance and initiatives include:

- informational documentation
- in-service training on guestroom and common area cleaning, linen handling, and laundering
- workplace protocols to meet the new health and safety challenges and expectations

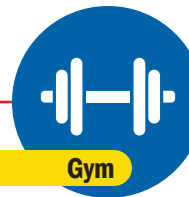

We have disinfected these **high-touch areas** for your safety using EPA-registered sanitizing chemicals.*
