

Technical Product Bulletin

P.O.G.

P.O.G. is a low-odor, highly effective, all-purpose, oily-type paint, oil, and grease remover designed for use in perchloroethylene systems.

Application

The product has great penetrating and lubricating action for fast release of stain discoloration, and is safe to use on all fabrics and colors not affected by dry side solvents. P.O.G. effectively removes most latex and oil-based paints, lipsticks, many inks, shoe polish, and other oil/grease-type stains.

Directions

See label for appropriate usage directions. Always test on an inside seam for textile dye fastness.

Packaging

P.O.G. is available in 4x1-gallon cases.
