

Technical Product Bulletin

PX-70

PX-70 is a highly concentrated, multi-purpose, synthetic liquid laundry detergent made from a carefully selected blend of anionic and nonionic biodegradable surfactants and fluorescent brighteners. The product also contains a chelant-type additive that improves performance in areas with high-mineral-content water.

Performance

PX-70 is a unique detergent developed for washing durable press, polyesters, polyester-cotton, and other hard-to-clean fabrics in high-water-hardness environments. It removes greasy soils effectively without adversely affecting fabric crease-resistance.

Advantages

- Excellent grease and soil suspending properties.
- Superior wetting action, high concentration.
- Safe to use on all fabric types.
- Liquid — instantly goes to work.
- Fast rinsing.
- Equally effective in high- or moderate-hardness water, low or high temperatures, and low or high alkalinity.

Directions

Light soil formulas: Use 1–2 ounces per 100 pounds of wash in the break operation.

Medium soil: Use 3–4 ounces per 100 pounds of wash in the break operation.

Heavy soil and shirt formulas: Use 4–5 ounces per 100 pounds in the break operation.

Packaging

PX-70 is available in 5-, 15-, and 55-gallon containers.
