

Technical Product Bulletin

WARE WITH ALL™

WARE WITH ALL is an alkaline, highly concentrated, chlorinated detergent packaged in specially designed capsules for safe automatic dispensing to single-rack and conveyor-type dish machines. This modern formula offers controlled foaming for one-pass cleaning of heavy soil, even in high-water-hardness applications.

Directions

WARE WITH ALL is most effective at water temperatures of 150°–160°F.

Your Pariser representative will choose the best dosage parameters for the conditions prevalent; however, a general dosage range of 1/8–1/4 ounce of WARE WITH ALL per 1 gallon of water tank capacity is recommended. Electronic monitoring probes control feed.

Remove the WARE WITH ALL container lid to reveal the lid strainer. Invert the container (lid down) and place it gently into the Pariser feed dispenser. When empty, replace the capsule and discard the old container appropriately.

Handling

KEEP OUT OF REACH OF CHILDREN. DO NOT MIX WITH ANYTHING BUT WATER.
FOR INDUSTRIAL USE ONLY.

DANGER: Product contains caustic, alkaline materials — can cause severe burns.

Protect skin, eyes, and mucous membranes from contact with this product and its solutions. Use only as directed.

First Aid

EXTERNAL: Immediately flush skin with plenty of cool running water for at least 15 minutes.

EYES: Immediately flush with plenty of cool running water for at least 15 minutes.

INTERNAL: If swallowed. DO NOT induce vomiting. Immediately drink large quantities of raw egg, milk, or milk of magnesia, then drink a large quantity of water. Follow with vegetable, olive, or mineral oil.

GET MEDICAL ATTENTION IMMEDIATELY!

Packaging

WARE WITH ALL is available in 4x10-pound capsule cases.
